TRADING PARAMETERS:

Payin deposit will be done after the payment reflects in our bank. So it could sometimes take 5-10 mins. Kindly take fresh payin details every day to avoid making deposits in the wrong banks. Auto payin gateway is also available 24 hours inside the mobile app.

Orders shall be executed on BID and ASK prices only and LTP shall not be considered.

Only above Intraday High and Intraday Low, we shall consider LTP price and pass the orders manually.

If a stop loss order is hit outside the high and low then we will remove the stop loss trade. If an id is liquidated due to margin shortage outside the high and low price then the trade will not be removed and only the price will be modified to bring it inside the high and low prices.

Positions once liquidated shall not be reopened. After fresh payin deposits, the client has to take fresh positions after liquidations.

After taking any entry position, the system will not allow the client to exit the position or place stop loss / target order for 30 secs in all the scripts. If your stop loss or target price comes inside 30 secs then it will jump and not get executed. Only for cryptocurrency scripts, 120 secs rule will apply.

Any issue raised by the client shall be resolved by our support team in approximately 30 minutes. We shall make our best efforts to resolve all the issues reasonably.

All issues should be raised within 60 minutes of the occurrence of the matter.

Issues raised after passing of 60 minutes shall not be entertained. All issues relating to positions already present in the system shall be entertained. We shall not consider issues relating to positions which are not present in the system and which client only wanted to take.

In case of any technical breakdown or server downtime issues, we shall do our best to resolve the technical issue in the shortest time period. During that time the client can trade manually on phone or WhatsApp via our support team. The decision of the management shall be final in case of any issue.

Payin Timings: 24 hours

Payout Timings:

Monday to Friday: 10am to 10pm

Saturday: 11am to 2pm

Sunday: Closed

RULES AND REGULATIONS FOR ID TO ID FUND TRANSFERS

ONLY TWO FUND TRANSFERS / PAYOUT ALLOWED PER ID PER DAY

NO NEW FUND TRANSFER WILL BE DONE AFTER 2 PAYOUTS OR FUND TRANSFER PER DAY. ONLY AN AGENT ID CAN DO MORE THAN 2 FUND TRANSFERS PER DAY

FUND TRANSFER TIME 9:20 AM TO 11:30PM FROM MONDAY TO FRIDAY ONLY

IT CAN TAKE AROUND 5 MINUTES TO EXECUTE THE FUND TRANSFER AS THE AUDIT TEAM HAS TO CHECK THE TRADING ID FIRST

THEREFORE COMPANY WILL NOT BE RESPONSIBLE IF ANY LIQUIDATION HAPPENS INSIDE 5 MINUTES OF RECEIVING THE FUND TRANSFER REQUEST

IF THERE IS ANY OPEN POSITION THEN FUND TRANSFER WILL ONLY BE PROCESSED AFTER CHECKING CARRY HOLDING MARGIN. ONLY THE AMOUNT OVER AND ABOVE THE CARRY HOLDING MARGIN CAN BE USED TO TRANSFER THE FUND

IF THE TRADING ID IS FOUND TO BE INVOLVED IN INVALID TRADES LIKE CHAMKA TRADING ETC THEN THE FUND TRANSFER WILL BE REVERSED

LIQUIDATION RULES & REGULATIONS

INTRADAY LIQUIDATION HAPPENS WHEN CLIENT EQUITY REACHES 20% OF THE INTRADAY MARGIN REQUIRED

FOR EXAMPLE: IF CLIENT TRADES 1 LOT OF GOLD MCX THEN MARGIN REQUIRED INTRADAY IS 2500/- SO LIQUIDATION WILL TRIGGER WHEN EQUITY (FUND LEFT IN THE ID) REACHES 500/- (I.E 20% OF 2500/-) AND THEN THE SYSTEM WILL CLOSE THE POSITION AT THE MARKET BID ASK PRICES.

CARRY POSITION LIQUIDATION HAPPENS WHEN CLIENT EQUITY REACHES 95% OF THE CARRY MARGIN REQUIRED

FOR EXAMPLE: IF CLIENT TRADES 1 LOT OF GOLD MCX THEN MARGIN REQUIRED TO CARRY THE POSITION OVERNIGHT IS 80000/- SO LIQUIDATION WILL TRIGGER WHEN EQUITY (FUND LEFT IN THE ID) REACHES 76000/- (I.E 95% OF 80000/-) AND THEN THE SYSTEM WILL CLOSE THE POSITION AT THE BID ASK PRICES.

SEQUENCE OF LIQUIDATION DUE TO CARRY MARGIN SHORTAGE:

SYSTEM LIQUIDATES POSITIONS 1 BY 1 IN THE FOLLOWING SEQUENCE:
THE POSITION WITH THE MAXIMUM LOSS IS LIQUIDATED FIRST. THIS IS DONE FOLLOWING THE PRINCIPLE THAT A GOOD TRADER SHOULD CUT LOSSES AND RIDE PROFITS.

AFTER THIS, IT WILL KEEP ON LIQUIDATING POSITIONS TILL THE ID COMES TO THE CARRY MARGIN LEVEL.

FOR EXAMPLE: IF A CLIENT HAS 1 LOT OF GOLD MCX WHICH HAS A MTM LOSS OF 1000/- AND 1 LOT OF NIFTY OPTIONS WHICH HAS A MTM PROFIT OF 200/- THEN THE SYSTEM WILL LIQUIDATE 1 LOT OF GOLD MCX FIRST IF CARRY MARGIN IS SHORT.

IMPORTANT NOTE:

IF A CLIENT MAKES 1 TRADE OF 2 LOTS AND THE CARRY MARGIN IS SHORT FOR 1 LOT THEN THE SYSTEM WILL LIQUIDATE THE TRADE OF 2 LOTS AS THE SYSTEM CANNOT BREAK THE TRADE.

IF A CLIENT MAKES 2 TRADES OF 1 LOT EACH AND CARRY MARGIN IS SHORT FOR 1 LOT THEN THE SYSTEM WILL LIQUIDATE THE TRADE OF 1 LOT ONLY.
